Getting started

1

Your site is deployed ✓

Try a test build and deploy, directly from your Git repository or a folder.

2

[Set up a custom domain](#) →

Buy a new domain or set up a domain you already own.

3

Secure your site with HTTPS

Your site is secured automatically with a Let's Encrypt certificate.

↶ Production deploys

Production: main@8137384 Canceled

12:59 PM: Update \_redirects

Production: main@b599d5d Published
